

JUST BRING YOUR SHOES AND PEDALS

EDMONTON MASTERS TRACK EVENTS

NO EXPERIENCE REQUIRED

LEARN TO RIDE THE TRACK

The 2022 Edmonton Masters Cycling Club has scheduled **THREE nights of track racing** at Edmonton's Argyll Velodrome. This is a result of the excitement generated at the construction of the new Coronation Recreation Facility that will be opening in 2026. The intent of these races is to welcome our members to the track for some exciting and safe racing. **Here's how it will work:**

1. The Argyll Velodrome facility **will provide you with a club bike** if you do not own your own track bike. We encourage you to bring a set of your road pedals and cycling shoes.
2. Track coaches will be at each race evening offering **instruction** to help everyone feel comfortable and safe.
3. **June 14** race night will kick-off with bike fittings and a learn-to-ride (or refresher) course for all those who will be racing. We'll close out the learning/refresher session with a structured warm up and then finish the night with one or two races to get your BAR points.
4. The **July 12 & August 16** race nights will be held under the tutelage of qualified track coaches as we work our way through several of the Track Omnium races for our coveted BAR points.

This is a great opportunity to be apart of some fun and safe racing as we begin to prepare ourselves for the exciting prospect of an indoor cycling facility that is **available year-round**.
